Prayer for Second week of Lent

A prism is a multifaceted piece of glass, in which all faces of the glass are the same. Yet light reflects off each surface projecting a different color or a different image, much the way we project different images of ourselves depending on our circumstances. A Family Perspective

Transfiguration is a common occurrence in families. When we commit to another, such as a spouse in marriage or a child in parenting, we are not committing to them only as they are today, but to the person they are becoming..
